

Dear Hiring Manager,

My name is Naoval Fadilah. I am writing to express my interest in applying for an available position at your company. I am eager to join and contribute to the growth of the company and am willing to be considered for a position that matches my qualifications and professional experience.

I have work experience in several fields, including QA Specialist, Web Developer, Laptop Technician, and Administrative roles. Through these experiences, I have developed skills in system testing, data management, device troubleshooting, and maintaining high-quality work standards. I am also proficient in using various office applications, including Microsoft Office, and I am highly detail-oriented and responsible in carrying out my duties.

In addition to my technical skills, I have strong communication skills and am able to work effectively both independently and as part of a team. I can adapt quickly to dynamic work environments and have a strong motivation to continuously learn and develop my skills in order to make a meaningful contribution to the company.

For your consideration, I have attached my Curriculum Vitae and other supporting documents. I sincerely hope to have the opportunity to proceed to the next stage of the recruitment process, where I can further explain my skills, experience, and potential contribution to the company.

Thank you for your time, consideration, and the opportunity to apply. I look forward to hearing from you.

Sincerely,

Naoval Fadilah

Project Portofolio

Naoval Fadilah

Laptop & MacBook Repair

Diagnosed and repaired various hardware and software issues on laptops and MacBooks. Handled system troubleshooting, component replacement, and ensured devices were functioning properly after the repair process.

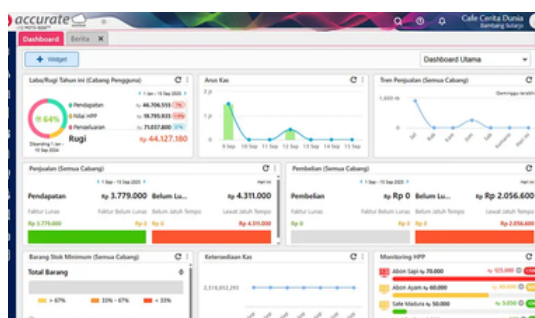

iPhone & Android Repair

Performed repairs and component replacements on various iPhone and Android devices, including LCDs, cameras, speakers, and charging ports. Conducted device inspections to identify issues and ensured all repairs were functioning properly.

Cashier & Financial Reporting Administrator

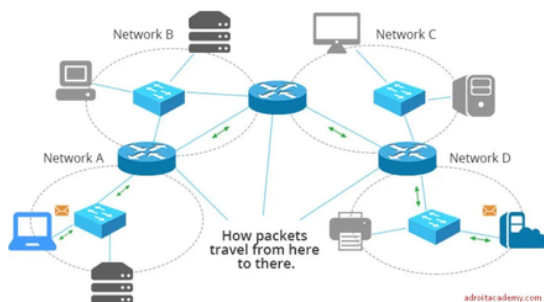

Managed payment transactions using the Accurate platform, maintained financial records, and monitored and managed inventory. Prepared regular reports based on transaction and operational data to support the company's administrative activities.

Project Portfolio

Naoval Fadilah

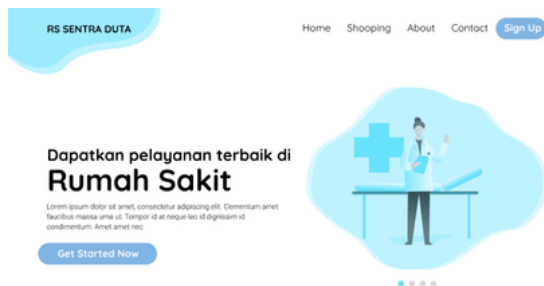

Network Infrastructure & Troubleshooting

Installed, configured, and troubleshot computer networks, including routers, switches, LAN, and Wi-Fi connections. Conducted network inspections and resolved connectivity issues to ensure stable and reliable network performance.

Sentra Duta Hospital Web

The website was designed to provide easy and quick access to various health-related information, medical services, hospital facilities, and available resources. In this project, I worked as a Frontend Developer. The website was developed using the Laravel framework and Bootstrap to create a responsive and user-friendly interface.

Counseling Dashboard Web

Starbhak Konseling is an online counseling service available through a website and mobile application, with both platforms integrated through an API for seamless data synchronization. In this project, I worked as a Full-Stack Developer, developing the website using Laravel and the mobile application using Flutter.
